

FLOOD SNATCHED FROM HONEYMOON

Called Back to Capitol for Most Important Day in Career.

HE HELPS MAKE HISTORY

His Bride of Few Days Sits in Gallery and Sees Him at Work.

[Special to The Times-Dispatch.] Washington, April 20.—Called back from his newly interrupted honeymoon, on which he had proceeded as far as New York, Congressman Flood, of Virginia, who was married on Saturday afternoon to Miss Anna V. Porter, of Manassas, to-day encountered the most important day of his career as a Congressman.

Immediately following the receipt last night of the information from Charles O'Shaughnessy at Mexico City that General Huerta had refused to comply with the demand that a salute of twenty-one guns be fired as a mark of apology to the American fleet at Tampico, the White House called Mr. Flood by long distance telephone at his hotel in New York, and requested him to return to Washington at once in view of important developments arising before his committee.

He arrived in Washington about 3 o'clock, and, after a hurried change of arrangements at the Shoreham Hotel for quarters for himself and Mrs. Flood, went to the Capitol and discussed with the House leaders the preparations for making the way clear for President Wilson to follow his chosen policy with regard to Huerta in Mexico.

As early as 10 o'clock he conferred with the White House by telephone and with the House leaders in regard to the message the President was to deliver at 3 o'clock, and for the steps to be taken by the House in carrying out the message necessary to follow up his intentions.

Immediately after President Wilson delivered his message, Mr. Flood, as chairman, called the members of the Foreign Affairs Committee to a secret session to discuss the resolution intended to give the President a free hand in Mexico. He succeeded in getting this resolution through his committee in less than an hour, and then directed himself to prepare the committee report. This he did in about twenty minutes, and reported the resolution with the report to the House.

Then devolved upon him the task of securing from the Rules Committee a rule to carry the resolution through the House at once. He obtained this by effecting a compromise with the Republicans to allow each side twenty minutes to debate the rule.

This accomplished, he brought about the passage of the resolution with the least possible delay by allowing the Republicans one hour and ten minutes, the Progressives ten minutes, and the Democrats fifty minutes to discuss the resolution. He apportioned the time between the different members, who wished to speak, and by his personal popularity and adept parliamentary tactics had the resolution passed by the House without a single hitch and without amendment.

During the afternoon Mrs. Flood took a seat in the gallery and watched her husband extend his efforts to get the desired resolution through the House, while he was unconscious of her presence.

Probably never in history has a bridegroom had such an enormous task devolve upon him right in the midst of an interrupted honeymoon than was encountered to-day by the chairman of the House Foreign Affairs Committee.

STATE LOSES CAMP

Driven Away From South Carolina by Governor Blease.

[Special to The Times-Dispatch.] Washington, April 20.—South Carolina has lost its chance of having the summer joint maneuver camp at Isle of Palms. Secretary of War Garrison to-day decided that he will not order the camp there because Governor Cole

Passport May Have Been Handed O'Shaughnessy

Vera Cruz, Mex., April 20.—Official advice have been received from Huerta to the effect that Charles O'Shaughnessy and Consul General Shanklin will arrive here soon on their way to Washington. General Huerta asks that they be given careful and complete protection so long as they are on Mexican soil.

The above message was received in code from Vera Cruz. Although it does not state explicitly that Huerta has handed their passports to O'Shaughnessy and Shanklin, it is, under the circumstances of transmission, open to such an interpretation.

Blease had not signed his intention by 6 o'clock on Saturday evening of giving the United States permission to hold such a camp. He notified the secretary by wire that a special delivery letter was en route to the White House, and that he would wait to hear further of his ultimatum to Governor Blease.

STUDENTS DUCKED

Mexican Youth Are Badly Treated at Notre Dame.

Washington, April 20.—Senator Algarin, charge of the Mexican embassy here, yesterday to-night by a telegram from the Mexican vice-consul at Indianapolis, the eleven Mexican students at the University of Notre Dame, at Notre Dame, Ind., were ducked in water there and badly treated by American students in the institution.

The consul informed the charge that he would take the matter up with the president of the university. Mr. Algarin said he would wait to hear further from the affair before sending any word to his government. As there are many Mexicans in various institutions of learning throughout the country, he fears, he said, that other such outbreaks of national feeling may occur.

CLUSTER SPRINGS IS WINNER AGAIN

Cluster Springs, Va., April 20.—Cluster Springs Academy gained another victory to an unbroken list to-day by defeating the strong nine from Randolph-Macon Academy, 6 to 3. The game was fast and exciting, and was not won until the eighth inning. A slight shower during the fifth account for a couple of errors on both sides. Both Wilson and James pitched high-grade ball, the former allowing four hits and the latter seven. Leonard, for Cluster, lead in batting, securing two doubles and a single, and driving in four runs. Both Thompson and Estes caught great ball, neither allowing a single steal.

HURRYING WORK ON AEROPLANES

Washington Wants Them Rushed to Completion for Use in Mexico.

Dayton, O., April 20.—The seeming certainty that there will be land fighting in Mexico was evidenced to-day when the government sent instructions to a local aeroplane company to hurry work on an aeroplane and a hydro-aeroplane being constructed for the government here.

Aviators Want to Go.

St. Louis, April 20.—The names of forty-four aviators, who are members of the aviation reserve, were telegraphed to Secretary of War Garrison and Secretary of the Navy Daniels to-day by Albert Bond Lambert, who organized the reserve.

These aviators, Mr. Lambert announced, now are ready for service. Members of the reserve already are telegraphing and writing to Mr. Lambert for instructions.

IN THE SENATE

(Continued From First Page.)

This was voted down after a hurried consideration on both sides. After a conference of several minutes between practically all of the Democratic Senators massed in the center of the desks on the majority side of the chamber, Senator Sisson moved that an adjournment be taken until 12:10 A. M., which would make it another calendar day and prevent any objection being made to immediate consideration when the resolution should be reported to the Senate at that time by the Foreign Relations Committee.

Just before adjournment Senator Fletcher, of Florida, inquired of Senator Lodge if he would object to immediate consideration of the resolution following a recess. He pointed out that the same parliamentary objection could be made after a recess as at that time.

"Whether or not I would make objection would depend upon the character of the resolution," replied Senator Lodge.

"The resolution has been read and its character is understood," said Senator Fletcher.

"I mean the resolution as it will be reported," said Senator Lodge. "May I ask if the Senator will object if the resolution is reported in its present form?" asked Senator Fletcher.

"I am not willing to assume that," said Senator Lodge.

Immediately upon adjournment the Foreign Relations Committee went in session on the resolution.

IN THE HOUSE

(Continued From First Page.)

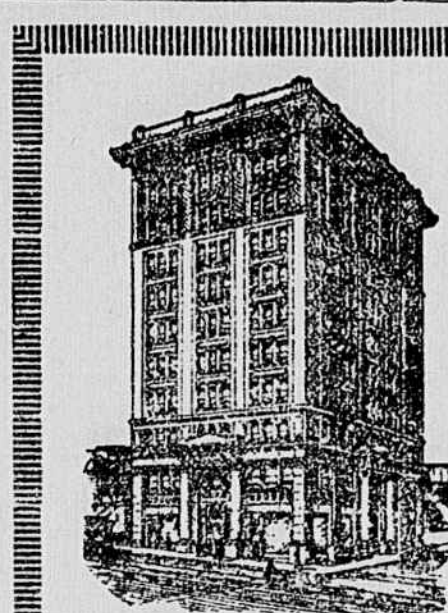

Representative Mann finally agreed that he would accept one hour and a half for the Republicans. Representative Underwood said the Democrats would be satisfied with one hour.

Representative Sisson, Democrat, of Missouri, declared that the resolution was a "declaration of war, and, as such, was a matter which Congress should fully consider." Speaker Clark then recognized Chairman Henry, of the Rules Committee, who presented the debate on the rule itself was limited to twenty minutes with the understanding that the Republican side was to have a fair opportunity for debate on the resolution after the adoption of the rule.

Representative Campbell, of Kansas, Republican, opened the opposition to the rule, declaring its purpose was "to make in order a resolution which is a declaration of war."

Representative Fox, of North Carolina, Democrat, supported the rule, declaring the time has come to put an end to these outrages in Mexico.

Progressive support for the resolution was pledged by Progressive

EXPERT TO BUILD SPORTY GOLF LINKS

Lynchburg, Va., April 20.—L. S. Mackie, a golf expert who has been traveling for years to the famous Fox Hill Golf Club, of New York City, is in Lynchburg for the purpose of laying off the proposed golf course on the new grounds of the Oakwood Club.

Mr. Mackie, after spending several hours on the property, expressed himself disappointed in the prospect of a splendid course for golf. He will be here until Wednesday or Thursday, at which time he will lay out one of the best courses in the state.

Mr. Mackie declared this afternoon that the new grounds of the club lay over in that time and are to be found in a splendid course for golf. He will be here until Wednesday or Thursday, at which time he will lay out one of the best courses in the state.

Mr. Mackie declared this afternoon that the new grounds of the club lay over in that time and are to be found in a splendid course for golf. He will be here until Wednesday or Thursday, at which time he will lay out one of the best courses in the state.

Mr. Mackie has arranged for an exhibition Wednesday afternoon with some local players.

The course will not be available for use this year, but it will be worked and gotten in shape at once, so that grass can be sown next fall. In the meantime, Mr. Mackie thinks, will give the club its course ready for use early next spring.

Players will continue to use the course of the Lynchburg Country Club at Westley.

WARNED AGAINST MINES.

Fearful There May Be Repetition of Maine Disaster.

[Special to The Times-Dispatch.] Washington, April 20.—Warrent has been sent to Admiral Badger to take special precautions against mines at Tarapur. A report has been received in naval quarters that there may be a repetition of the disaster to the Maine.

Sixty-Six Per Cent.

According to the last report of the Bureau of Labor Statistics the retail prices of the "principal articles of food" in forty industrial cities advanced sixty-six per cent. in fourteen years. The price of

Shredded Wheat

in all that time has remained the same, and it is just as satisfying, strengthening and sustaining as it was fourteen years ago—a complete, perfect food, supplying more real, body-building nutriment than meat or eggs, costing much less and much more easily digested. Your grocer sells it.

Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Deliciously nourishing when eaten in combination with baked apples, stewed prunes, sliced bananas or canned or preserved fruits. Try toasted Triscuit, the Shredded Wheat wafer, for luncheon with butter, cheese or marmalade.

Made only by The Shredded Wheat Company, Niagara Falls, N. Y.

"EXPERT" ON LIVING UNDER ARREST

He Is Charged With Using Mails to Promote Gigantic Swindle.

[Special to The Times-Dispatch.]

New York, April 20.—Dr. Julian P. Thomas, millionaire pure food manufacturer, who claims he has solved the problem of high living cost, by which people can live on 1 cent a day, was arrested to-day by Police Inspector Kenyon on the charge of using the mails to defraud.

Arraigned before United States Commissioner Houston, and held in \$5,000 bail, Dr. Thomas is charged with doing a mail-order medical practice, which has netted him over \$1,500,000 in the last five years. By his own admission he has been taking in over \$100 a day or over \$300,000 a year.

United States Assistant Attorney James D. Osborne declared that Dr. Thomas, who was once a famous aeronaut, promised to cure every correspondent able ill in the world, and in many cases sent out a diagnosis urging treatment when the patient was perfectly well.

That he is a benefactor of the human race in discovering proper ways of living and ways of reducing the high cost of living is the claim made by Dr. Thomas, who blames the medical profession for the government action against him. Graduated from the University of Georgia School of Medicine, he says he early learned that the medical profession were poisoning their patients with drugs and maintaining them with unnecessary surgery.

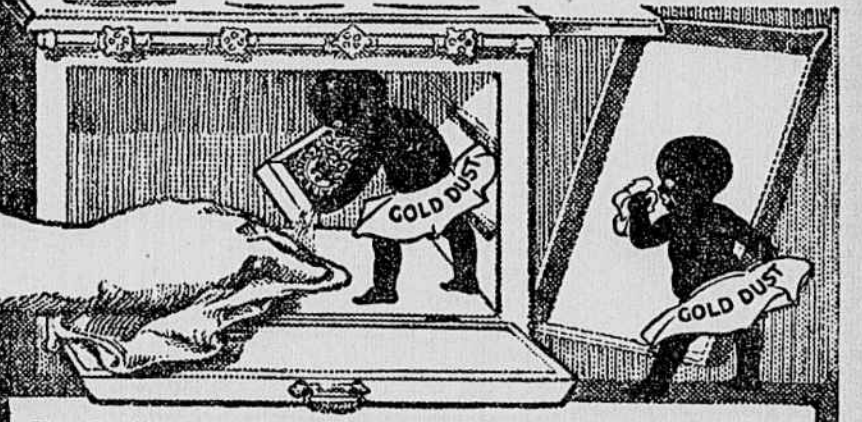

In proof of the latter, he said that, after being injured in an automobile accident in 1907, he refused to let the surgeons amputate his leg, and that by his own drugless healing he caused his broken limb to heal again.

"I live only on one of my wheat biscuits, a slice of tomato and an onion—that is my meal for a day," said Dr. Thomas. "And I am the strongest man in New York. I can lift 2,200 pounds with my back, or 1,000 pounds thirty times in five minutes."

Establish Their Innocence.

Washington, April 20.—State Department reports to-day said the Americans, Paris and Boyless, held at Piedras Negras, in connection with the murder of two Federal Mexican officers, had established their innocence.

William Byrd, another American held by Mexican Federal authorities in Mexico City, has been released. It was announced that General Villa had declared no newspaper correspondents were captured by his forces, as recently reported.
